APPLICATIONS

Our products come with a wide variety of applications where IAQ is necessary to monitor.

Home

Hospitals

Schools

Monitor will help to know the real time AQI. Breathing good air quality will help in preventing health hazards such as heart and respiratory diseases, breathing difficulties, asthma.

Airports

Offices

Continuous tracking of AQI will help identifying areas with moderate AQI. The moderate AQI will lead to mild health effects like eyes, nose and throat irritation, skin rashes and itching, flu like symptoms.

Restaurants

Hotel rooms

Breathing bad air quality will cause respiratory illnesses. The problems such as breathing difficulty, emphysema, asthma, coughing, wheezing and irritation in airways are experienced.
